

WHY EXHIBIT?

MOLD BUYERS ATTEND AMERIMOLD: Sourcing quality molds is not an easy task. With more than 30 mold builders routinely exhibiting in the show, more and more buyers have used the event as the place to quickly find capable, quality tool and mold manufacturers.

A COST-EFFECTIVE PACKAGE PLAN: We've made it easy for you to participate with The Mold Builder Advantage package. It is an integrated, low-cost opportunity to present your company in a professional way in front of hundreds of buyers.

A VALUABLE COLLECTION OF CO-LOCATIONS: For the first time ever, Amerimold will co-locate with the Molding and Extrusion Conferences, giving exhibitors a robust attendee pool from around the moldmaking and molding industries that has never been duplicated before. All attendees of the Molding and Extrusion Conferences will receive free admission to Amerimold, as well as admission to networking events, giving all exhibitors a chance to meet and discuss business with hundreds of fresh faces and potential new customers.

WHY ATTEND?

WHAT DOES AMERIMOLD OFFER FOR MOLD BUILDERS?

THE OPPORTUNITY TO CONNECT...

...WITH ACTIVE MOLD BUYERS

Time and time again, our attendees tell us the number one reason they visit Amerimold is to look for molds/dies/tooling and mold building services. Time and time again, Amerimold is the place to find those services and to meet their needs.

...WITH OUR EDUCATION EVENTS

The Amerimold Tech Talks are back, and once again offer focused sessions on designing, building and maintaining molds. In-Booth Demos are also returning this year, giving attendees the chance to see the latest and greatest in moldmaking and molding technology live and in person.

...WITH EMERGING TECHNOLOGY

The Amerimold exhibit hall showcases leading suppliers of machine tools, cutting tools, mold components, software and much more. You and your team can see and source the products and services you need, whether you're in the business of engineering, building or maintaining molds.

The benefits of exhibiting at Amerimold far outweigh just the potential business connections and opportunities that are uncovered – which are substantial. Amerimold is really a State of the Union type of event for our industry. All the players are gathered in one location and everyone's willingness to share and collaborate is phenomenal. As an equipment and technology supplier we are able to identify the true needs of the industry and develop our machines to meet those specific requirements. Combine that with the lifelong relationships that the mold making and Amerimold have allowed us to develop, we wouldn't miss it!
